Unprecedented level of interest for sponsorship at the 19th World Petroleum Congress

With only 15 months to go before the opening of the 19th World Petroleum Congress the organisers have already secured over 60% of the sponsorships available. This represents three times the number of sponsors secured at the previous edition of the WPC in South Africa during the same period. This unprecedented interest reflects the quality of the platform offered by the WPC to its sponsors for them to maximise their presence at the congress and obtain unique visibility and access. Importantly, the organisers have confirmed that they will not create new sponsorship opportunities once the initial quota has been reached in order to avoid affecting the visibility of the current sponsors. Consequently, it is important to secure your sponsorship as soon as possible to avoid any disappointment. For further information on sponsorship opportunities, please contact Frederic Malgoire, fmalgoire@19wpc.com, tel: +44 207 596 5080.
